JEDDA

Jedda, one of ASDOGS purpose bred dogs, is working with Michael from Mackay, who has been in a wheelchair for many years.

These two have formed a strong bond and have become a very special team.

Jedda has been trained to do many tasks, including taking off Michael's shoes and socks, opening doors, picking up dropped items and fetching things as required.

With Jedda's help, Michael has been able to retain some independence in his life and does not have to rely entirely on another person for his day-to-day needs.
